BY: James Barton Design-Build Inc., Apple Valley

LOCATION: Rosemount

PROJECT COST: \$35,000

During a whole-home makeover, this bathroom in Rosemount saw some big and small changes. To accommodate a new addition to the home, a window over the tub was moved to the back wall of the bathroom and the entry door found a new location. The original bathroom's plumbing remains, but has been updated with all-new fixtures. The existing bath featured the original builder-grade materials with standard oak cabinets, vinyl flooring and cultured marble tops. Having lived in the deep South, the homeowners had developed a love for traditional Southern style. That style is reflected in the new bathroom design

with its cherry cabinetry featuring furniture toe kicks, granite vanity tops, ceramic tile floors and oil rubbed bronze faucets and hardware. The enameled millwork and soft Wedgwood blue walls complement the colors of the granite and cabinetry.

MATERIALS

Cabinetry: Cherry wood

Flooring: Ceramic tile

Hardware: Oil-rubbed bronze finish

Countertop: Granite in Giallo Napoleon
